TECHNICAL SUPPORT & INFRASTRUCTURE

Shalev Osher

Tier 2 support / Cloud telephony / Systems

shalev@osher.cc +972-50-722-3763 osher.cc LinkedIn Ashkelon, Israel

PROFILE

Technical support specialist with a QA background and experience investigating incidents across VoIP, servers and cloud services. I turn troubleshooting findings into actionable tickets, guides and tools that support teams can use.

EXPERIENCE

Voicenter | Technical Support Specialist, Tier 2 2023 - 2026

Investigated production issues using Kibana, PRTG and API diagnostics across networking and AWS services. Partnered with Development and DevOps via Jira. Supported VIP and standard clients, tested releases, and co-developed a troubleshooting tool with the Development team.

Voicenter | Technical Support, Strategic Customers 2021 - 2023

Managed strategic customer accounts and investigated complex cloud telephony issues with Asterisk and SQL. Wrote guides and led training exercises.

Voicenter | Technical Support Engineer, Tier 1 2021

Troubleshot VoIP and network issues, triaged tickets, and escalated incidents.

ILDC | Quality Assurance Tester 2018 - 2021

Tested Altice (HOT) set-top boxes in the Sagemcom lab against specifications.

IDF | Military Service 2015 - 2018

Performed vehicle maintenance and used test equipment to verify functionality.

EDUCATION & CERTIFICATIONS

Kernelios | Cyber Defense Practitioner, 2021 - 2022

CHCSS 310 / MCSA: Windows Server 2016 / LPI Linux Essentials

TOOLS & LANGUAGES

VoIP, Asterisk, SQL, Kibana, PRTG, Jira, AWS, Windows Server, Linux

Hebrew (native) / English (fluent)
